PUBLICATIONS OF THE DEPARTMENT OF MINES AND MINERAL RESOURCES FROM 1939 TO 1990

Open File Report 90-5

August, 1990

by Diane Bain

This report is a serial listing of the publications of the Arizona Department of Mineral Resources (1939-1984) and the Arizona Department of Mines and Mineral Resources (1984-August, 1990). The name change in 1984, to more accurately reflect the Department's involvement with mining, did not affect the function or the procedures of the Department, so the publications have not been segregated.

All of the publications are available for inspection at the Department's Phoenix office. Photocopies may be obtained for out-of-print publications.

This report was compiled from a dBase IV™ database and published with Ventura Publisher®. It is available as a dBase IV™ database or ASCII listing.
